

The Los Angeles Basin Section of CWEA  
**First Virtual Presentation**  
**Vitrified Clay Pipe Corrosion**  
**John Westergaard, P.E.**  
**Los Angeles County Sanitation Districts**  
**September 24, 2020**  
**Noon Via Zoom**

Please join LABS in a virtual presentation to learn about how the Los Angeles County Sanitation Districts dealt with a severe and unprecedented corrosion problem in some of their larger diameter vitrified clay pipe sewers. Bryan Vansell, General Manager for Mission Clay Products, will also be available for questions and answers.

The Los Angeles County Sanitation Districts are a public agency focused on converting waste into resources like recycled water, energy and recycled materials. The agency consists of 24 independent special districts serving about 5.6 million people in Los Angeles County.

**Our Speaker:**

John Westergaard, P.E. is a Civil Engineer with the Los Angeles County Sanitation Districts. Mr. Westergaard oversees the CCTV inspection and condition assessment program for the agency's 1,400-mile wastewater collection system.

**To Register:**
